FOREIGN PERIODICALS.

REPUBLICATIONS OF

The London Quarterly Review
The Edinburgh Review,
The Foreign Quarterly Review,
The Westminster Review,

AND

Blackwood's Edinburgh Magazine

THE above Periodicals are reprinted in New-York immediately on their arrival by the British steamers, in a beautiful clear type on fine white paper, and are faithful copies of the originals—BLACKWOOD'S MAGAZINE being an exact fac simile of the Edinburgh edition

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise As literary organs, they stand far in advance of any works of a similar stamp now published, while the political complexion of each is marked by a dignity, candor and forbearance not often found in works of a party character

They embrace the views of the three great parties in England—Whig Tory and Radical—"Blackwood" and the London Quarterly" are Tory, the "Edinburgh Review" Whig and the "Westminster," Radical The Foreign Quarterly" is purely literary, being devoted principally to criticisms on foreign Continental Works.

The prices of the RE PRINTS are less than one third of those of the foreign copies, and while they are equally well got up, they afford all that advantage to the American over the English reader

TERMS

PAYMENT TO BE MADE IN ADVANCE

N B—The *Postage* on all these Periodicals is reduced by the late Post Office law, to about *one third the former rates*, making a very important saving in the expense to mail subscribers

Prof. Cleaveland's Certificate!

THE following very high recommendation which is given by PROF CLEAVELAND, to *Kelly & Co's. Extract of Sarsaparilla* must certainly be taken for truth by the citizens of Bangor, and vicinity, as it is an authority and sanction for the Medicine, which not one of the *Nostrum* makers of the day would have the impudence to solicit

The Sugar-Coated Pills.

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

That PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders proceeds directly or indirectly, from a morbid state of the system caused by

IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS The originator of the only true and genuine Sugar coated Pills most respectfully informs the enlightened public, that this new and elegant preparation can be obtained only from authorised agents and at the proprietor's establishment No 523 Broadway, N York—Price 25 cents a single box 5 boxes for one dollar

G W LADD Agent for Bangor

Among the numerous remedies which stand reputable on the basis of an ancient name are none perhaps which have acquired so great celebrity and extensive use in so short a time as this invaluable article—They have gained their high reputation alone by their good works Those who once try them always use them again They are grateful to the stomach;—they improve the functions of secretion nutrition and circulation They restore digestion and appetite, and create a natural warmth inwardly, which glows through the whole system, giving it greater vitality and animation The experience of thousands attest to their good effects After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system His digestive organs perform their proper functions, his blood regains its wonted purity the oppressive sense of weariness and pain departs, and his body becomes endowed with renewed strength and vigor—while the mind resumes its original vivacity and clearness. Such are the results produced by Halsey's Sugar coated Pills the mildest, yet most effectual preparation of the class in use

In BILIOUS complaints Costiveness Indigestion, Dyspepsy, and all other disorders of the stomach they produce the most happy results For Sores, Boils Saltrheum, Tetter, Erysipelas, Eruptions of the Skin, Scrofulous complaints and many other like diseases arising from IMPURE BLOOD they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to the directions which accompany the box) were cured of the most afflicting cases of *scrofulous affections* They give *Good Blood for Bad* Bottles of the boasted Sarsaparillas, contain less of the true virtues of that valuable plant and are less effectual than a single box of these extraordinary Pills. In Colds, Coughs Influenza, Sore Throat Headache, Giddiness &c, they are recommended with entire confidence the relief in these cases is quick and permanent For Fever and Ague, Fevers Asthma Piles, Loss of Appetite Dropsy, Jaundice Worms, Looseness General Debility, and many of the various other diseases to which the human system is liable they have proved an infallible remedy Their action on the bowels is of the mildest character, even *over doses* never cause griping or uneasiness, yet they are searching and efficient It is impossible by words to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class, a trial only will explain the wide difference The unhappy invalid after having *tested* but a *single box* of them will with joy for the unexampled change wrought in his health, bear testimony to their uncommon virtues

N B The *coating of sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding this they are the original sugar coated pills The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills, coated them, and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by depositing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar coated Pills* In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box, and buy only of advertised agents

Workingmen Remember

that Mr Lewis, the Democratic Chairman of the Senate Committee on Finance during the debate on the Tariff Bill, stated that the 8th and 9th sections were both of them, '*substantially* COPIES OF A BRITISH STATUTE long in operation' ''

That Mr Payne of Alabama, when asked where the country would get revenue, replied—'easy enough—*we shall consume FOREIGN goods instead of goods made at home*' We shall derive a revenue of $100 000 000, if need be by IMPORTING FIVE TIMES AS MANY AS WE NOW DO''

That Mr McDuffie, in replying to Mr Webster, made use of this extraordinary language —'It was represented that the LABOR of the country would be affected by this bill—THAT (said Mr McDuffie, contemptuously) IS BUT A SMALL MATTER''

Remember these things.

(New York Times

The Democracy of the People cannot stand the 'Democracy' of subservient Leaders.

The uprising of the People in Maine against the subserviency of the leaders of the Locofoco party, is what might justly be expected, especially when they see the protective policy, established by the Republican party, thrust aside merely to gratify the spite of the cotton planting, slave holding interest

The leaders do not mean to give up easily — They intend, where practicable, to coax back into their support all they can, and to threaten, denounce and ridicule, and even apply the epithet 'Federal' to all who follow conscience and manhood and vote as accountable men, who feel their personal responsibility

In New Hampshire the same course was pursued, until the 'We the People threw the 'We the leaders into the minority An honest straight forward pursuit of maintaining the rights of the free States, and the rights of Labor, will secure a victory in Maine, as signal and emphatic as that of New Hampshire The movement on the part of a portion of the Loco party against the subserviency of their leaders, as manifested in this city and some other parts of the State, should give fresh courage to every true hearted man in the State, of whatever party, to do all in his power to have the vote of Maine proclaim a lasting rebuke to those who have bowed to Southern dictation, and sacrificed the welfare of the North

"*Men of thought* be up and stirring,
Night and day,
Sow the seed—withdraw the curtain,
CLEAR THE WAY
MEN of ACTION *and and cheer them*
As ye may ''

Scotch Thrift.

Mr Schouler, the Editor of the Lowell Courier writing from Glasgow give a very favorable account of the thrift, happiness and good moral habits of the people of Scotland He says in every instance during the three weeks he has been there he has found no portion of the food provided at regular meals, touched, until a blessing was invoked and thanks given by some of the company This is the invariable practice, not only in all private houses but at the tables of the hotels and steamboats Their food is of the simplest kind In a majority of the families oat meal porridge and buttermilk forms the principal food, many rarely eating anything else except in holiday occasions, or on Sabbath mornings

Sunday is kept with great propriety Glasgow, and all the suburban villages are patterns of sober stillness and religious decorum of this day People employ themselves in going to church during the day, and in walking on the seashore in the dusk of the evening with their families There is none of the dissipation which is seen in the vicinity of American cities The religious services are very protracted At Rothsay, he heard an extemporaneous prayer three quarters of an hour long, and the same divine then preached a sermon which lasted two hours and a half, in a vehement and earnest style, leaving Mr S to wonder how he had the physical power to hold out so long There is a great deal of the old Covenanter spirit alive in Scotland at the present day

Let the people Remember,

That the appropriations made at the recent session of Congress, amount to FIFTY-ONE MILLIONS FIVE HUNDRED THOUSAND DOLLARS, of which TWENTY-THREE MILLIONS were *expressly* for the SLAVEHOLDERS' WAR with Mexico, and that some TEN MILLIONS MORE will be necessary for that purpose, when the bills are settled, *even if the war stops now*

Let them Remember, That in the face of this *enormously increased expenditure,* a Locofoco Congress has passed a bill "to *reduce* the duties on imports,' and thereby *diminish* the revenues of the country, and that the expenses of the present year will EXCEED THE REVENUE, at least FORTY MILLIONS OF DOLLARS—and all this for a war which will not benefit the North one cent

Let them Remember, That this war was ENTIRELY UNNECESSARY, for any purpose, except to secure Texas proper to the slave holders, and to *conquer the other Mexican* territory this side the Rio Grande

Let them Remember, That the war grew exclusively out of the annexation of Texas, and that until SLAVE HOLDING DEMOCRACY demanded that Annexation should be made a part of the democratic creed, THE LEADERS AT THE NORTH WERE DIRECTLY OPPOSED TO IT But when *party* demanded that freedom should give way to slavery in Texas, those same leaders *turned to the right about immediately*

Let them Remember, That the Democratic party *stands pledged* (by the terms of annexation,) to admit FOUR MORE SLAVE STATES, from this Texan territory whenever such admission is demanded and that IT WILL BE DONE *if that party is in power*

Let Freemen Remember these things, And then vote for Locofoco members of Congress IF THEY WISH SLAVERY TO BE STILL FURTHER EXTENDED—Kan Jour

A Movement in Old Lincoln.

The Bath Telegraph states that many prominent Democrats have informed its editor that Col M Crate is NOT the regularly nominated candidate of the Democratic party so called, for that, after the *mummons* of the party had carried the nomination for M Crate, the sober-minded and well disposed *Democrats* announced to the Convention the name of Mr Kallock, as the regular Democrat candidate for Congress

This correction, the editor says, is made out of respect to the high standing and moral worth of the many Democrats who have requested it

Meeting of the Independent Republicans.

The meeting of the Independent Republicans at the City Hall last evening was well attended—the Hall being thronged in every part — Dr T C Barker was chosen chairman

Dr C A Jordan reported a list of resolutions which were adopted He also addressed the meeting with great force and pungency and received repeated applause for his home truth, striking illustrations, and eloquent appeals — Our limits will not admit of further notice to day, and we must take occasion to refer to the subject again

Help for Pennsylvania.

We understand (says the N Y Express) that a large iron manufacturer not far from Philadelphia has received intimation that a proposition for nearly six thousand tons of iron is withdrawn *The order is to be sent to England* If the labor of this country does suffer, it is 'A SMALL MATTER,' a M' Duffie says

More Help under the New Tariff

The N Y Sun says

'We learn that one of the effects of the new tariff law has been to cripple, and probably to completely extinguish, our dry promising enterprises for the mining and transportation of the excellent bituminous coal of the Cumberland region in Maryland English and American capitalists have advanced funds to several companies engaged in this business, on the faith of stability in the measures of government, and the continuance of the heavy protection to coal The great reduction of duty will revive the trade in Picton coal, which is an article somewhat similar to the Cumberland

From the St Louis Republican, of 21st

News from the Santa Fe Expedition.

An express from Gen Kearney's Camp, at Bent s Fort, arrived at Fort Leavenworth on the 14 h instant The express left Gen Kearney on the 19th of July We have been politely favored with letters received by the Messrs Pomeroy, by this express, and also some information collected by a gentleman who returned yesterday from Fort Leavenworth, on board the Little Missouri

Gen Kearney, with his command, consisting in several companies of U S Dragoons, the 1st Regiment of Missouri Volunteers, under Colonel Donniphan, and the Battalion of Volunteer Artillery under Col Clark set out from Bent s Fort for Santa Fe, on the 1st day of August — The troops were all in excellent health and spirits—there had been but one deathup to the time the express left

A general stampede took place among the horses two days before the express left and at the time of his leaving about fifty horses, chiefly belonging to the volunteers, were missing, and it was feared they would not yet be recovered This will operate severely on those who have lost their horses for in the event of their not recovering them, they will have to travel on foot

A short time before the express left, Captain Moore, of the U S Dragoons, captured three spies who had been seen sent out from Santa Fe, to ascertain the character, extent, &c of the United States force After their capture and their purpose was ascertained, by the orders of Gen Kearney they were shown all over the army, and after they had seen every thing, they were dismissed and permitted to return to Santa Fe

From these men and also from other sources it had been ascertained satisfactorily that there would be no resistance made to Gen Kearney s taking possession of Santa Fe In fact, it is said, that the Mexicans were anxiously awaiting the arrival of the army, believing that it would furnish them a harvest in the way of trade and protection from the troublesome Indians in their vicinity There were no troops at Santa Fe, nor in the upper provinces, and none were expected

Gov Armijo had issued a proclamation, in which he states that the existing hostilities between the United States and Mexico will not interrupt the trade between the United States and Santa Fé That in all respects, it shall be conducted as if the war did not exist This, of itself, is a sufficient indication that Governor Armijo does not intend to offer resistance to Gen Kearney

Our informant states, that the ladies of Santa Fe were making extensive preparations for the reception of the United States troops, and some of them expected to be permitted to go with the expedition to California Preparations were making for fandango dances and other sports

It is said that Gen Kearney will stop at Santa Fe until Col Price's regiment arrives there That, upon their arrival, that regiment, or a portion of it, will be left to occupy Santa Fe, and other important points in the vicinity, and Gen Kearney, with the residue of his force, will immediately proceed to California

The 500 Mormon Infantry, under the command of Lt Col Allen, were rapidly progressing They made 38 miles in two days It was believed that they would reach Bent s Fort nearly as soon as Col Price s Regiment, and quite as soon as the purpose of their enlistment required

Matters and Things at Washington.

The correspondent of the New York Express says

I hear the Union railed at from all quarters, and before Mr Polk s days are numbered there will be a new organ here. Messrs Blair & Rives have completed a large publication office and stand ready to publish it, and to enlist in it Mr Van Buren s friends intend to avenge themselves for the wrongs they received at the Baltimore Convention, not by bringing forward Mr Van Buren again, for that would be folly, but by insisting that the next Presidential candidate shall come from New York, and that Silas Wright shall be the man A vast deal of so called "public opinion" is at work already to accomplish this result, and particularly in this city — Mr Cass has also many friends at work for him, but not enough, I think, to obtain the mastery over Mr Wright s friends Mr Calhoun's friends are not idle, and in due time will press his claims with a zeal that knows no abatement

The correspondent of the N Y Advertiser thus writes under date of Aug 27th

The administration have recently called to their aid the experience of some men particularly acquainted with the climate, coasts and interior of Mexico, with a view to the more efficient conduct of war, especially on the Mexican coasts

But it was finally determined, yesterday, in Cabinet Council, to take no new steps in the prosecution of the war until the result of the revolutionary movements, recently commenced in Mexico, be ascertained

Further excuses will, therefore, be made, at the next session of Congress, for the continued expenses of this slow and lingering and inactive war

☞ The Pensacola correspondent of the Mobile Herald, announcing the arrival of the steamer Mississippi, says,—as news by her —

On the evening of the 7th inst, Com Conner contemplated an attack on Alvarado, and with a view to that object the Mississippi was sent down, preparatory to an attack on the 8th, but owing to the difficulty and danger encountered in crossing the bar, and the indications of an approaching storm, a signal was given from the flag ship to haul off—this was done, not however, without firing a few shells at the enemy, at a distance of about two miles and a quarter, which compliment was reciprocated by a salutation of musketry from the bushes at our gun boats, which were endeavoring to effect a passage up the river against a strong current

No damage was done to our party, but what damage the enemy sustained is unknown This attack I learn will be persevered in by Com Conner, and success will inevitably be the result The great dissensions in the enemies camp, as to who shall rule, can surely result in no good to them, but on the contrary favor our interest

RESOLUTIONS,

Passed at the Lincoln County Convention, held at Wiscasset, August 25, 1846

Resolved That the administration of James K Polk has forfeited all claim to the support of **Northern Freemen** the whole influence of the Executive having been exerted to secure the passage of the Tariff bill of '46—and thereby to reduce the value of free labor —a bill, British in origin, British in design, and anti American and anti Democratic in its operation The same influence has also enacted the odious Sub-Treasury bill, upon which the **People** had so recently put their Sovereign Veto—it has exerted also its utmost strength in favor of slavery to perpetuate it and to extend it over *foreign* territory, and when its influence has proved too weak in some instances to force Congress to reject bills which long delayed justice demanded should be passed James K Polk, making *his will* paramount to the will of the *people s Representatives*—stamps upon the bill—'I forbid

Resolved That the high manly and patriotic course pursued by the entire Whig party, and a portion of the **Democratic** party in the Senate of the U. S on the Oregon question in saving our country from the horrors of war merits and receives our heartfelt gratitude ;—and while we rejoice in the final adjustment of the threatening difficulties connected with that question, we cannot but share in the general mortification of the country, at the extravagant demands and graceless yielding of James K Polk, so discordant with one of our National mottoes— to ask nothing that is not *clearly right,*—to submit to nothing that is wrong

Resolved, That true to our party principles, we utterly abhor and condemn in all its aspects the odious system of human slavery, and that we now and at all times, avow irreconcilable hostility to every scheme of the slave power at the South or its abettors among the dough-faced democracy in the Free States, tending either to extend the area or prolong the existence of slavery—and that we call upon the enemies of oppression, irrespective of parties to co operate with us in all constitutional means to bring to a period this social and political evil, at war with the genius of our institutions, and in violence of the spirit and feelings of the age

Resolved, That the war we are now waging against the Republic of Mexico is atrociously and wickedly unjust—brought about by the President solely for his personal and political aggrandizement; in violation of all the forms of the Constitution—in which the people or Congress have no participation That the President, in sending an army to invade the territory of a nation with which we were at peace, without provocation and without constitutional authority and with no prospect but inevitable war, was the highest stretch of executive power, and the most dangerous and flagrant instance of executive usurpation that has been committed by any incumbent of the presidential office

Resolved, That the passage of the Whig Tariff 1842, found an exhausted Treasury—with a national debt of thirty millions of dollars—the industrial energies of the nation paralyzed—our laborers farmers, mechanics, artisans, producers of every class found the products of their skill and industry substituted by those of foreign paupers—our commerce languishing—the balance of trade to a ruinous extent against us—the country exhausted of its specie to pay for the refuse of foreign workshops, while thousands of our own industrious citizens were literally suffering for employment at home In a word—it found the practical operation of **Free Trade,** brooding like an incubus over prostrate enterprise, entailed upon us by the two preceding administrations had exhausted the resources and paralyzed the productive energies of the government and people, with its invariable concomitants national and individual bankruptcy

Resolved That the passage of the Loco Foco Tariff of 1846 found an overflowing Treasury with a surplus of thirteen millions of dollars, the industrial energies of the nation resuscitated—our laborers, farmers, mechanics, artisans and producers of every class, found the products of their labor and skill substituting those of foreign paupers—our commerce flourishing beyond all former example—no birds as the Loco Foco demagogues predicted 'roosting on the yard arms of our vessels"—the balance of trade in our favor and rapidly liquidating the great amount of foreign debt, contracted under the malignant auspices of '*Free Trade*"—a redundancy of specie, and, instead of being exported to foreign countries, retained at home to pay our own laborers for the more valuable products of our own farms and workshops In a word —it found the practical operation of **Protection** hovering like a bird of happy omen over the hearths and homes of toiling millions of our country—replenishing the resources, and re animating the productive energies of the government and people, with its invariable concomitants, national and individual prosperity

Resolved, That the "British Tariff" of 1846, must and shall be *Repealed* ' That the battle cry of the Whig of old Lincoln henceforth, till that bill of abominations ceases to be the law of the land, is *Repeal!*' That we have nailed our colors to the mast! there to float with **Repeal** inscribed upon its folds, till not one vestige of that iniquitous law remains to rob the thousands on thousands of our toiling countrymen of the honest, hard earned fruits of their industry

Resolved, That the recent cruel and wanton exercise of the Veto Power, by James K Polk, in defeating the French Spoliation Bill, deserves the severest reprehension of every American citizen who would have his country wash from her escutcheon the foul stain of withholding from her citizens their honest dues, and calls more imperatively than ever for the utter abolition or essential modification of that kingly perogative, which has of late years been exercised in such gross violation of every principle of popular government

Resolved, That the resuscitation of the old exploded project of the 'Sub treasury"—the favorite idea of Mr. Van Buren's administration so signally condemned by the People in 1840, by the present administration, deserves the severest condemnation of the people of this nation, and as citizens of Old Lincoln, and well wishers to the true interests of our country we pledge our influence and our votes against all such "experiments"—the experience of despotic governments, but incompatible, with that of a free people

Resolved, That this convention entertains the profoundest regret that the country is so soon to lose the valuable services of the Hon GEORGE EVANS—whose splendid talents and sound statesmanship and long political experience, have won for him a fame co extensive with the Republic, the best interests of which he has so long and ably advocated To say we are proud of such a statesman, would be but echoing the voice of the People, irrespective of party, and whether in the Halls of Congress or the retirement of private life we assure him that none will feel a deep interest in his welfare than the Whigs of Old Lincoln

Resolved, That we have the fullest confidence in the ability, integrity and sound Republican principles of DAVID BRONSON, and in behalf of the Whigs of Old Lincoln we pledge for him, a cheerful and an whole hearted support for Governor at the ensuing election

Resolved, That we most cordially approve of the nomination of Hon FREEMAN H MORSE to represent our District in the next Congress—and we recommend him to the free, independent, and unbought voters of this County, as one who has been tried and always found faithfully and ably battling for their rights, unbribed by Executive influence and unawed by the imperious dictation of slavocracy

Resolved, That the Executive of this State, in defeating the clearly expressed will of the majority of the freemen of this county, in the election of a Clerk of the Courts, at the last State election, trampled upon the clear democratic principle, that the majority should rule, and that, in presenting again, the name of Edmund B Bowman for that office, we may with propriety call upon all those who opposed the office holder's candidate, to make his election *this time,* too sure to be again affected by Executive bargaining

Yankee Mechanics.

A fair specimen of the enterprise and ingenuity of our Yankee neighbors is exhibited in the following description, by a correspondent of the Tribune at Meriden Hills, Conn, dated July 18th He says "A word about the 'land of steady habits' It takes the Yankees for ingenuity, enterprise and hospitality Of the latter I have just had delightful experience But there are other objects of interest in Connecticut than the good people there Perhaps I can tell you of one which few in your large city have heard of About 20 miles beyond New Haven the cars stop at Meriden, a pleasant little town—from this place to Southington it is six miles. A smooth and shaded road winds up through the hill, just romantic enough to make a charming ride For a considerable distance along the road side runs a small stream, which, in any other country would hardly suffice to turn a grindstone On this is a small factory nearly every quarter of a mile A look at this, I am sure, would delight you Small as these establishments are, it is pleasing to see what our people have accomplished under our protective system I wish the Tariff tinkerers at Washington would let well enough alone But come with me for a moment Here is a mill and here a furnace, yonder they make ornaments for stoves, this is a hook and eye factory Here good clocks are retailed for two dollars each In the next shop they make buttons of wood and cover them with tin at five cents for twelve dozen! Who would think it, clocks at $2 and buttons at five cents a gross' But one of the best and most extensive establishment is that of Peck, Smith & Co, at Southington, for making machines used in the manufacture of tin and sheet iron A complete set may be had at ninety dollars of such high polish that a pretty girl would not be to blame for falling in love with her own image reflected from any of the work They send these to all parts of the United States, to Canada and South America

REQUIESCAT.

BY FERDINAND FREILIGRATH.

Translated by Mary Howitt

Who is the ponderous hammer wields,—
Who e'er compels the earth to flourish,—
Or reaps the golden harvest fields
A wife and little one to nourish,—
Whoever guides the laden bark,—
Or where the noisy wheels are turning,
Toils at the loom, till after dark,
Food for his white faced children earning,—

To him be honor and renown!
Honor to handicraft and tillage!
To every sweat drop falling down
In crowded mills and lonesome village!
All honor to the plodding swain
Who holds the plough!—Be it too awarded
To him who works with head and brain,
And starves! Pass him not unregarded!

Whether in chambers close and small,
'Mid musty tomes he fancy smothers,—
Or, or the trade the bondage thrall,
He drames writes, and songs for others,
Or, whether he, for wretched pay,
Translate the trash which he despises —
Or learning's serf, pass day by day,
Dance-corps through classic exercises;

He alone is a prey to care,
To him 'tis said, "Starve thou, or borrow '"
Grey grows betimes his raven hair,
And to the grave pursues him sorrow!
With hard compulsion and with need,
He like the rest must strive untiring,
And his young children cry for bread
Mains his free spirit's glad aspiring!

Ah! such a one to me was known
With heavenward aim his course ascended,
Yet, deep in dust and darkness prone,
Care, sordid care, his life attended
An evile and with bleeding breast,
He groaned in his severest trial,
Want goaded him to long unrest,
And scourged to bitterest self denial.

Thus, heart sick, wrote he line on line,
With hollow cheek and eye of sadness,
While hyacinth and leafy vine
Were fluttering in the morning's gladness
The throstle sung and nightingale,—
The soaring lark hymned joy unending —
Whilst thought's day laborer, worn and pale,
Over his weary book was bending

Yet, though his heart sent forth a cry
Still strove he for the great ideal,—
'For this, said he, "is poesy,
And human life this fierce ordeal!"
And when his courage left him quite,
One thought kept hope his heart alive in,
'I have prescryed my honor bright,
And for my dear ones I am striving!"

At length his spirit was subdued!
The power to combat and endeavor
Waning and his heroic mood
Came only faintly, like fever,
The muses' kiss sometimes at night
Would act his pulses wildly beating,
And his high soul soared towards the light
When night from morning was retreating

He long had lain the turf beneath
The wild winds through the grass was sighing,
No stone is there, no mourning wreath,
To mark the spot where he is lying
Their faces swoll'n with weeping, forth
His wife and children went,—God save them!
Young paupers,—heirs to nought on earth,
Save the pure name their father gave them!

All honor to the plodding swain
That holds the plough!—Be't too awarded
To him who works with head and brain,
And starves! Pass him not unregarded!
To toil all honor and renown!
Honor to handicraft and village!
To every sweat drop falling down
In crowded mills and lonely village!

WISTAR'S BALSAM OF WILD CHERRY,
the great remedy for
CONSUMPTION,
and the best medicine known to man for
Asthma of every stage, Liver Complaints, Bronchitis, Influenza, Coughs, Colds, Bleeding of the Lungs, Shortness of Breath, Pains and weakness in the side, breast, &c., and all other diseases of the
PULMONARY ORGANS
A very important disease over which this Balsam exerts a very powerful influence, is that of a
DISEASED LIVER
In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances when patients had endured long and severe suffering from the disease, without receiving the least benefit from various remedies, and when MERCURY has been resorted to in vain, the use of this Balsam has restored the Liver to a healthy action, and in many instances effected
PERMANENT CURES,
after every known remedy had failed to produce this desired effect
Besides its astonishing efficacy in the diseases above mentioned, we also find it a very effectual remedy in ASTHMA, a complaint in which it has been extensively used with decided success, even in cases of years standing
It not only emanates from a regular Physician but has also been well tested in all the complaints in which it is recommended It is not my intention, therefore, either to cloak it in mystery, or in any way deceive the public by overrating its virtues; on the contrary, I shall simply endeavor to give a brief statement of its usefulness, and flatter myself that its surprising efficacy will enable me to furnish such proofs of its virtues as will satisfy the most incredulous, that Consumption may and 'CAN BE CURED," if this medicine be resorted to in time
None genuine, unless signed I BUTTS on the wrapper

A. G. BAGLEY'S
CELEBRATED IMPROVED EVER-POINTED
GOLD PEN.
WARRANTED.

THIS Pen received the highest premium at the last Fair of the American Institute, and has been pronounced by the first Teachers of Penmanship in the country, to be infinitely superior to any Gold Pen ever before introduced to the American public. These Pens are indestructible except by actual violence—no ink will injure them—retain their elasticity, and the peculiar shape of the nibs, (which was first introduced by Bagley) makes it more pleasant to use, renders it less liable to damage, more easy to repair, and prevents the necessity of the great care that other articles of the kind require.

Manufactory, 180 Broadway, N. York.

Suppression of Quackery:
To the Public.

WHEREAS several persons calling themselves Veterinary Surgeons, have gone, and are going around this part of the Country performing the operation of Nemotomy—that is, cutting the Metacarpah nerve in case of lameness of the feet.

Let those who have sick or lame horses inquire of the Quack or Pretender the nature and seat of the disease previous to his performing the above operation. The patient without being properly examined may be laboring under a wound caused by a nail which he has picked up on the road—may have sprained his ancle—the tendons, or cords, or even the shoulder. The disease is therefore attributed to the foot. The above operation is performed and the animal is destroyed for ever. The operation may be performed with success in many cases by Dr. RICHARD KERN, Veterinary Surgeon of Cambridgeport, Mass., whose skill as a Veterinary Surgeon is well known in that part of the country.

NOW TO THE TESTIMONY.

PREJUDICE however deep rooted and long standing must yield to simple, ungarnished statements of fact, like the following:—Captain Thompson is well known in this city, and in many parts of this State, and his statements are highly important. Read them.

BANGOR, May 18, 1846.

I have been very severely afflicted with a distressing cough, attended with asthma. For thirty years, especially during the winter season, for some eight or ten years past I have expended a large amount of money in endeavoring to regain my health and have tried nearly all the preparations of the day with little or no benefit. During the fore part of last winter I was much worse than usual—very much worn down with my cough, and emaciated so that I was unable to attend to business. I felt discouraged and began to conclude with my friends that my case was a hopeless one. Whilst in this situation, a friend called to see me and advised me to send and purchase a bottle of Hunter's Pulmonary Balsam, and a box of the Indian Dyspepsia Pills prepared by CURTIS & CO. of this city, saying he had made use of them in a case very similar and had been cured. I had little or no confidence in any patent medicines, having tried many and found no relief, and objected sending for them for some time. At the earnest solicitation of several who declared they had found relief from them, I purchased a bottle of the Balsam and a box of the Pills. Very soon after, I commenced using them, was relieved from the distress at my lungs, my cough became loose, and I raised easy. Soon after my cough began to disappear and in less than a month it was perfectly well. My lungs now appear perfectly well, and have been so for months. I believe the Balsam and Pills SAVED MY LIFE. I have made use of it since for my children in cases of colds and coughs, and it has universally given them immediate relief and cured the cough. I do most cheerfully recommend it to the public, believing it the *best article in the world* for all lung complaints, asthma, &c. JOHN THOMPSON.

The Balsam and Pills are sold wholesale and retail by CURTIS & PERKINS, No. 4 Strickland's Block, West-End Kenduskeag Bridge, Bangor. Also, by D. BUGBEE, and Druggists generally in this city. 3m june 20.

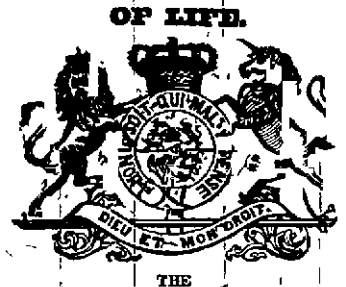
CONSUMPTION CURED!

BUCHAN'S HUNGARIAN BALSAM OF LIFE.



THE

GREAT ENGLISH REMEDY

For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases, still stands unrivalled and unsurpassed as the most elegant, agreeable and effectual curative of these formidable complaints, now known to the civilized world

Three years of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre eminent merit in all parts of the country, on the great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slight forms of colds, cough and inflammation, that can possibly be used

SPITTING OF BLOOD! This frightful symptom of approaching Consumption, is specedily checked and prevented by the use of Buchan's Hungarian Balsam, which heals the affected membrane, removes the incipient tubercles, and restores those vital organs, the lungs, to a sound and healthy condition

REMEMBER THIS: Spitting of Blood always arises from a tendency to Tuberculous disease and if not checked, at the outset will soon, very later determine in death. A person who raises blood once, will raise blood again, unless a proper curative is immediately employed!

PAIN IN THE SIDE! This distressing symptom of Consumption arises from inflammation of the Lungs or the Membrane called the Pleura, or from Bronchial affection of the air passages In either case it is a very dangerous indication of disease It prevents full and free breathing and wears away the natural strength of the system The cause of this symptom should be removed at once, and no lung can possibly effect the object so speedily and happily as the Great English Remedy, discovered by Dr Buchan, which is entirely vegetable in its ingredients, and perfectly harmless in all its qualities

LIVER COMPLAINT In cases of Consumption the Liver is always more or less affected, and also the Spleen, Pleura, and small intestines On dissecting Consumptive patients, Tubercles are often found on all these organs, particularly upon the Liver, which also becomes fatty, oily and swelled. The effect of the Hungarian Balsam on diseases of the Liver, especially first be of a mild nature, is direct and powerful! *Simple disease of the Liver, unattended by Consumption is speedily cured by its use.*

WINTER COUGH The harsh, dry, hacking winter cough which afflicts old people, and invalids in a low state of health is happily affected by the *Hungarian Balsam.*

It warms, moistens, and stimulates the whole breathing apparatus; removes all morbid mucus, and other foul matter, purifies and ointments the blood, improves the secretive power of the Liver, Spleen, and other large glands, and the digestive organs, and imparts new life to the worn and emaciated system

BRONCHITIS Bronchitis, Difficulty of Breathing, Harsh Cough, a slimy expectoration with all other symptoms caused by an affection of the *air tubes* leading from the throat to the lungs, are directly and specifically cured by the use of the admirable remedy invented by *Dr Buchan.*

This is a very painful, wearing, and in urious complaint, and always has a powerful tendency to inflame and soften the Lungs and thereby to induce the worst form of Pulmonary disease Be warned in time, ye afflicted! and employ this valuable remedy.

TUBERCLES ON THE LUNGS! The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs Incredible as this is generally esteemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect, in all cases where there is no natural organic defect In fact, so confident is the American Agent of its power to cure the worst form of this disease, that he prefers, (as it has frequently stated) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians, rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the *worst of cases*

EXPECTORATION! Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs The Cough which is distressing is simply the result of a desire to expectorate, and so long as foul matter exists in the air passage it will continue to irritate the membrane and provoke a cough Coughing is an attempt to throw off this matter, and expectoration gives great relief In ability to expectorate in the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant* It dissolves the morbid and diseased matter in the air passage, changes it from a thick, glutinous substance, to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient There is no better medicine in the world, if its expectorant quality alone be considered

SPASMODIC ASTHMA! Simple or Spasmodic Asthma, has no better remedy than the Hungarian Balsam This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy as readily as any other form of Pectoral disease

CONSUMPTION! Consumption has been graphically described as a *Shrinking of one's self!* The Hungarian Balsam by its cleansing, warming, softening and annihilating power, produces, not shrinking but *expansion!*

Before its delightful influence, all chills, fever, night sweats, costiveness, blueness of the nails a hot flushed skin, an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun! This is no delusion, but demonstrable fact, sustained by incontestable proof, from all parts of the country

BE WISE TO DAY! Delay in any case of Consumptive tendency, is emphatically Death, under all ordinary treatment The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above described, be advised in time

Sold in large bottles at only one dollar per bottle

Highly Important to all Invalids & friends of Invalids.

THE AFFLICTED IN DANGER! SALUTARY CAUTION,

READ! READ!!

THE well established and well earned reputation of WRIGHT'S INDIAN VEGETABLE PILLS, as a Sovereign antidote, and cure in cases of Fevers, Head Aches Indigestion Dyspepsia, Dysentery, Colic, Female Complaints, &c &c has excited the cupidity and envy of the proprietors of other medicines, and since their admirable qualities cannot be impugned, has strayed against them the antagonist efforts of men who seek to pass off other medicines by the reputation of Wright's Indian Vegetable Pills

Beware of all attempts to palm off any (so called) specifics by means of specious sounding and deceptive titles "SUGAR COATED PILLS" may be pleasant to the palate, but it requires something more than a agreeable exterior to combat with disease. We shall not attempt to analyze the composition of the "Sugar Coated or pretended improved Indian Vegetable Pills," which have been thrown into the market and advertised extensively in the country papers—we have no desire to do so—nor is it necessary It is, however, our duty to assure the public emphatically, that they are not an improvement on WRIGHT'S Indian Vegetable Pills and that whoever purchases them under this supposition is wofully deceived This caution is positively necessary, since the title (nearly) the qualities set forth, the combination of ingredients, &c are all those which formed the distinctive and original character of the true medicine

Remember, buy none but "WRIGHT'S Indian Vegetable Pills," which are protected by a patent These have attained an almost incredible sale and circulation, owing altogether to their own intrinsic merits The public will pass its own judgment upon any attempt to snatch the Laurel from the brow of the inventor of these medicines where it has been placed by grateful thousands who owe their continuance of the enjoyment of the blessings of health to his happy and benevolent agency

Wright's Indian Vegetable Pills

have performed wonders when used in cases of Intermittent, Remittent, Nervous, Inflammatory and Putrid Fevers, Measles, Small Pox and Erysipelas Inflammations, of the Brain, throat, stomach, lungs, liver intestines kidneys and bladder pains in the stomach, back and side, consumption, dropsy of the head of the chest, of the abdomen and of the limbs, scrofula, scurvy and syphilis cancer, gravel, loss of appetite, sick headache, rheumatism, both acute and chronic, spitting of blood, diarrhea dysentery and colics sylncope, apoplexy and fits hysteria, dyspepsia, hypochondriasis epilepsy, hooping cough, Palpitation of the heart, ulcers and sores of every description, hysterics, weak nerves, and low spirits suppression and other delicate Female Complaints

No other medicines ever discovered has grappled those horrid forms of disease with such general success. They derive thus powerfully THE EMPLOYMENT OF NATURAL MEANS TO COUNTERACT THE EVILS OF NATURE The bowels of the earth have not been ransacked for poisonous minerals to infect the system under the pretence of eradicating disease The Field and the Forest alone have been searched for materials for the healing art! From these have been collected remedies attacking the various forms of disease, and expelling it by the outlets provided by the author of our Being the lungs the skin, the kidneys and the bowels Hence Wright's Indian Vegetable Pills, based upon the curative medicines, gifted by nature, are Anodyne Diuretic, Expectorant and Purgative

The ORIGIN of this invaluable medicine entitles it to unlimited confidence and respect The nearer we approach to nature, in our researches after truth both in science and art, the more complete will be our success in both Look at the uniform physical condition of the Indian Tribes of this continent whether exposed to the frosts and storms of the North or to the rain heat, and pestilential miasma of Southern climate Houseless unprotected exposed to every atmospheric change every extreme of the seasons dwelling at times in morasses and by the margins of unhealthy pools and swamps—they yet enjoy an almost total immunity from disease while the white man who enjoys all the comforts of civilization with its attendant arts is as much inferior to the savage in physical vigor, as he is superior to him in intellectual acquisitions—How does this happen? Simply because he first of the light of science he relies upon that divine instinct which impels him to select from the produce of the field and forest those remedies which Nature and Nature's God has bounteously provided for the solace of suffering and the mitigation and cure of disease—sowing them broadcast on every hill and valley Let those who impiously arrange the good justice of Divine Providence, and point with a sneer to the multitude of invalids who lie groaning upon beds of sickness, turn from the false lights of man, and study the secrets of nature and they will adore that mercy which has so bountifully provided a cure for every wound—*a remedy for all who seek one*

Disease rarely assumes one form from another even in any one case—hence the absurdity of attacking it by one uncompounded medicine But Wright's Indian Vegetable Pills combining a remedy for every form of disease, attacks successfully any combination of malady This union of powers render these pills thoroughly cleansing in their nature and operations They cannot fail of affording relief if taken according to directions accompanying them They may be freely resorted to in the most desperate case of the most desperate disorders, for they have effected remarkable and marvellous cures They are applicable to a wide range of diseases and their use is not confined to any particular age, or to either sex They are now triumphantly established beyond the reach of cavil and the only danger that exists is on the part of the public lest they should suffer from unnatural or spurious Pills palmed off by the help of false similitudes to the genuine Pills Therefore, we once more caution the public against purchasing any but the

GENUINE

"WRIGHT'S INDIAN VEGETABLE PILLS."

These Pills as we before remarked operate by purgation—by thoroughly cleansing the entire system from all impurities, and in making the invalid, in the homely but expressive phrase "a new man" whether the disease is INCIPIENT CONSUMPTION which insidiously attacks the Lungs, producing that dry, hacking cough so painful to the friends, or Cutaneous, showing itself upon the skin in eruptions or blotches, whether the kidneys or the Bowels be affected—*Wright's Indian Vegetable Pills* are equally efficacious in warding off danger Their expectorant cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease

The *perfect safety* of the medicine is another all important quality and one which has contributed more than any thing else to its extension and popularity

In a word the medicine commends itself strongly to the patron of the public, and its use bids fair to become, before long ALMOST UNIVERSAL

N. H. DOWNS' Vegetable Balsamic Elixir.

The great Northern Remedy for CONSUMPTION.

Also for the cure of Colds, Coughs, Whooping Cough, Croup, Bleeding at the Lungs, Bronchitis, Catarrh, and all diseases of the Pulmonary or Bronchial Organs

IT is now more than ten years since this incomparable remedy was given to the public, with what success the thousands of restored invalids, with the universal encomiums of a grateful people, afford abundant and gratifying evidence Indeed no medicine has ever with such UNIVERSAL SUCCESS grappled with disease It is its own best commendation, and to be valued needs but to be known

Its operation upon the system is marked and peculiar from that of most similar preparations

It is *EXPECTORANT*, and most essentially aids in the expulsion from the stomach and lungs of phlegm and phlematic humors, through the process of expectoration or spitting

It is *SUDORIFIC*, and promotes a healthy perspiration, thus expelling by the pores of the skin those nauseous fluids and impurities of the blood, the retention of which in the system is a prolific source of suffering to the invalid

It is slightly *CATHARTIC*, and usually corrects any costiveness attendant upon Pulmonary complaints, while most similar preparations produce a contrary effect, thus adding to instead of diminishing that difficulty (See statements of Mr Bleadar, Mr Ross and others, in the pamphlets and bills)

We do not pretend that the Elixir is a specific for all the ills that flesh is heir to, but we do say and can confirm by incontestible evidence, that for CONSUMPTION it is unequalled Hundreds by its use have been snatched from an untimely grave, and hundreds more, who delayed too long its use, have found even then that relief from suffering which they had vainly sought from every other source

For hard and obstinate COUGHS, whether produced by a mere cold, the relic of a fever, or the result of a more fixed and permanent pulmonary habit, it is just the thing needful, as by its wonderful expectorant qualities it loosens the cough, and enables the patient to raise with little effort what would otherwise cause hours of hard and laborious coughing Many persons testify that after having been unable to obtain more than a slight degree of rest for weeks, they have, on taking the first dose, obtained a comfortable night's rest, and by continuing its use, in a short time have been restored to health

OBSTINATE COLDS AND COUGHS it will usually cure in one or two to five days

To persons afflicted with *WHOOPING COUGH* we would especially recommend the Elixir, as it relaxes the cough, and saves much of the labor of hard coughing usually attendant upon that disease!

ASTHMA We believe it is a generally acknowledged fact, wherever the medicine is known that nothing so generally gives relief—in so great a proportion of instances effects a perfect cure, in this distressing malady, as Downs' Elixir (See certificates of Mr Carleton, Mr Perkings, and others in pamphlet)

CROUP This dangerous malady in children may be cured by Downs' Elixir We speak confidently having never known, among the hundreds of instances in which it has been used, one where it has failed after a fair trial

BLEEDING AT THE LUNGS In this dangerous and formidable disease, the success of the Elixir has been such that we feel authorized in saying no preparation has ever met with similar success It has rarely, perhaps never, been known to fail where it has been early resorted to and the directions faithfully followed (See statements of Mr Meader, Mr Walker Mr Downs, Alderman Morton and others in the sheets and pamphlets)

In conclusion, we would say, never despair—Hope on, hope ever! If you still doubt of its virtues its efficacy enquire of those who have used it Enquire of the Agents who sell it They generally, either from experience or observation, know of its merits and when they tell you of its effect—what they have seen and what they know—are entitled to your confidence

Pamphlets and sheets may be had of agents gratis, giving a full description of the medicine, &c
